3-Step Start

1. Select or refill a cartridge.
2. Screw the 0.3 mm mouthpiece / nozzle - orange or 0.4 mm - blue onto the cartridge and insert it into the pipe.
3. After use, recap the cartridge and place spent cartridges back into the box.

3-Step Refill

1. Rinse the empty cartridge with water.
2. Use the refill tool to hook the plunger, then refill with the needle.
3. Close the cap and return the cartridge to the box.

Care

. Cartridge stuck?

Remove the mouthpiece/nozzle, screw on the black cap, and gently pull the cartridge out.

. Nozzle clogged?

Remove the nozzle from the cartridge. Place it in a microwave-safe cup with 100 ml of water and warm for no longer than 2 minutes. Allow it to cool before handling.

Shop

. Need spare parts or consumables?

Visit the HdyoN shop to order:
